Subject: Approval of ECPs, Contract LP-2264

Dear Chuck,

We approve both your ECP 70A and the Class II change to the Phase Stepper PC Board. Request you provide the contractor with formal authority to proceed with these no-cost changes.

We would like the contractor to include the part numbers of modified Phase Stepper PC Boards in his next revision to the Receiver tech manual along with an appropriate interchangeability statement. Also he should provide the PSO with a DCN on this change.

Regards,

George
